36TH World Congress of Neuropsychopharmacology | 9TH AsCNP Congress

Melbourne, Australia

June 15-18, 2025

Advancing Intelligent Horizons Towards Brain Health

AsCNP

Sponsorship & Exhibition Prospectus

We are delighted to announce that the World Congress of Neuropsychopharmacology will return to Australia for the first time in nearly 30 years. **CINP-AsCNP 2025, the 36th World Congress**, will be held at the Melbourne Convention and Exhibition Centre from Sunday, June 15th to Wednesday, June 18th, 2025, around the theme '**Advancing Intelligent Horizons Towards Brain Health**'.

With the development of science and technology in recent years, efforts to apply neuropsychopharmacology to clinical practice in neuropsychiatric disorders have flourished worldwide. There have been many important developments within Australia, which has developed a youth mental health paradigm and clinical staging for early psychosis including at risk states. Moreover, Australia is the first country to permit the use of psilocybin assisted therapy for treatment resistant depression and MDMA assisted therapy for post-traumatic stress disorder (July 2023) and has also pioneered trials in psilocybin assisted therapy for generalised anxiety disorder.

CINP-AsCNP2025 will bring together experts from research and medical institutions, leading worldwide regulatory authorities and major pharmaceutical firms to promote basic and clinical research and to create a framework for a cohesive collaboration between academia, industry and governmental institutions toward the development and appropriate use of central nervous system drugs. We are confident that, by fostering discussion between world leaders in neuropsychopharmacology and international expertise in related fields, the congress will lead directly to innovative developments in a wide range of fields associated with central nervous system drugs. We plan to share the results of these discussions widely.

CINP's role has become more significant year by year as brain disorders have sadly diversified and increased throughout the world. Prior to 2021, the conference was held every other year, but has subsequently been held annually, rotating worldwide. Based upon past audience trends, it is confidently expected that more than 1500 international experts from over 50 countries will participate in CINP-AsCNP 2025. The 9th biennial meeting of the Asian College of Neuropsychopharmacology (AsCNP) will be held alongside the CINP Congress; CINP events held in Asia have historically been particularly successful and have attracted exceptionally high participant numbers.

The CINP-AsCNP Joint Congress offers potential sponsors a significant and unique opportunity to showcase emerging therapies, technologies and services to a truly global audience of clinicians and researchers. Your continuing support, particularly at such a challenging time for the global economy, is invaluable. It enables us to build upon our previous work to enhance international collaboration, increase outreach to the areas which offer most scope for potential growth and to further develop the field of neuropsychopharmacology. We would therefore like to thank you sincerely for your past support, and to look forward to a fruitful and mutually beneficial partnership.

We would like to conclude by offering our heartfelt good wishes for the ongoing success of your company. Thank you in advance for your kind consideration and look forward to hearing from you soon.

With our best wishes,

About CINP

The International College of Neuropsychopharmacology (CINP) is a truly worldwide organization established over 60 years ago in Zurich, Switzerland and can count on a widespread support from all over the world by its active members. Holding regular meetings in form of Training, Educational Programs, International Meetings and World Congresses, CINP reaches interested researchers all over the world. Clinicians hear about the latest research advances and new treatments whilst researchers hear about new clinical needs and problems. Therefore, CINP is dedicated to promoting research and education on a worldwide basis.

About AsCNP

Since the establishment in 2008, the Asian Academy of Neuropsychopharmacology (AsCNP) has been stand on "encouraging research and collaboration to promote the communication of ideas in convergent disciplines of neuropsychopharmacology in Asia". Under encourage of this mission, Asian colleagues have been involved actively in developing new pharmacotherapies, and providing continuing education and training opportunities for psychiatrists and empower patients and families with professional knowledge.

Melbourne

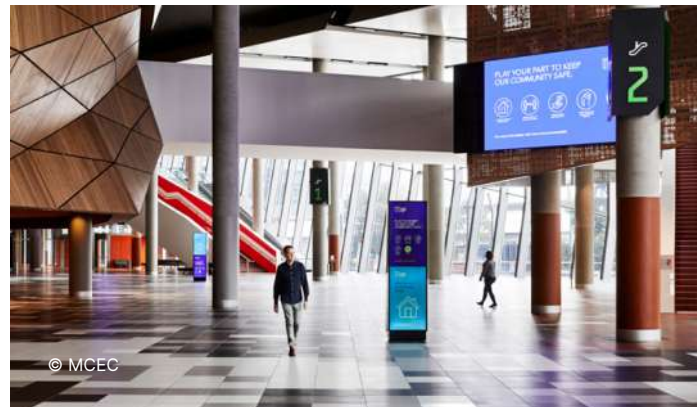

Melbourne is undisputedly the knowledge and cultural capital of Australia where creativity and innovation come together to deliver great business events, inspiring places to explore and cutting-edge advancements that are globally acclaimed. A city where the world's brightest minds gather to inspire, innovate and deliver real change in world-leading research and development. With its vibrant, multicultural population, temperate climate and outstanding quality of life, Melbourne is an ideal destination for conference organizers and delegates alike. The city is compact, convenient and easy to navigate with everything on a delegate's doorstep. In fact, its unique event infrastructure provides the opportunity to meet, stay and play all within the heart of Melbourne.
